

Honda TRX400EX Kit

Both the 39 and 41mm FCR kits bolt on to your stock air box and intake manifolds. Both come supplied with a must use push/pull throttle assembly must be used (supplied with kit). The 39mm kit is well suited to all around condition, trail riding, woods and mx with stock to mid motors. The 41mm carb is best with big, highly modified engines and used such as desert racing, duning, and sand drags.
